ANNOUNCEMENT FOR 1878.

The Buffalo City Directory for the current year gives the results of a most careful canvass, with a fullness of detail and a nicety in classification scarcely attained in any previous volume. Duplication of names has been avoided as far as possible, and, allowance being made for this, the canvass indicates neither an increase nor a decrease of population during the year. Buffalo has held her own and is to be congratulated upon it, in view of the continued depression in nearly every department of business.

The Publishers feel a pardonable pride in the conscientious manner in which the work of the Directory has been done, in the beauty of its typography, and in the completeness and excellence which the practiced eye will recognize in every page of the volume. For any want of accuracy that may be discovered in the compilation, the publishers or their canvassers cannot well be held responsible, inasmuch as every effort possible was made to overcome the difficulties which lie in the path of canvassers; and the few who may possibly miss their names from the work have themselves to blame.

The Directory contains the usual amount of advertising, the very best firms in the city being represented in its pages; the index and classification will be found more convenient than ever before; and it will be seen that the information in regard to the municipal government and the public, religious, educational, charitable and private institutions, is unusually full and interesting.

The Buffalo City Directory for 1878 challenges comparison with any like publication in the country.

STREET AND AVENUE DIRECTORY.

EXPLANATION.

Ir will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and summerating all streets which cross the same in the order in which they occur. The streets in the city were re-numbered in 1898, and the following method was adopted, to wit: From the starting point of the street, measuring along the line of the street twenty feet; then making No. 1 to the right-hand side, and No. 2 to the loft-hand side, and no on, each twenty feet whether there be a building or a vacancy, or a street crossing. The number on one curner has been given, so that a person wishing to find, say, 409 MAIN STREET, on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently the place he seeks is only a few doors above.

In case you need new Type for News or Book Work, we would advise you to give us your orders and you will be convinced, what we affirm, to be a fact.

ELECTROTYPING.

Printers will find it to their advantage to send their forms to be Electrotyped when large numbers are to be printed from them, thereby saving their type from wear. Also Books and Pamphlets Electrotyped as low as Stereotyping. Cuts, Borders, and in fact anything that needs Electrotyping.

In consequence of the death of Mr. N. Lyman, former proprietor of the BUFFALO TYPE FOUNDRY, the style and name of this Foundry will be hereafter, N. Lyman's Sons, Type Founders, Buffalo, N. Y.

In making this change, we must return thanks for the favors shown this Foundry in the past, and hope that your trade will be continued with us, and that you will give us an opportunity to please you, as it shall be our endeavor to do so to the best of our ability.

We can supply you with anything in our line at rates as favorable as any Foundry in this country, and material that is not excelled for beauty and durability.

THE

CATHOLIC UNION

A WEEKLY EIGHT-PAGE JOURNAL,

DEVOTED TO

Catholic Interests, and Catholic and General Literature and News.

PUBLISHED EVERY THURSDAY

BY THE

CATHOLIC PUBLICATION CO.

This admirable and enterprising paper is the organ of the Diocese of Buffalo, and is largely read in this city and the neighboring cities of Rochester, Lockport and Elmira—and indeed all over Middle and Western New York—for it is the only important exponent of Catholic opinion in this portion of the State; from this as well as from the style and ability of the paper itself, it is the acknowledged medium of address to Catholic thought throughout this extensive district.

Though Catholic in tone and object, as becomes the official organ of the Bishop of Buffale, it is not confined to purely Religious topics, but goes out to meet every discussion of the day, has independent views, and not unfrequently has taken the position of a leader of thought on subjects of general interest.

The Editorial Department is devoted to the Religious, Political, and other interesting issues of the times. Its ability in this department has long been recognized.

This paper was organized under the auspices of Right Rev. Dr. RYAN, Bishop of Buffalo, is conducted by clergymen distinguished for literary taste and ability, and is under the efficient business management of a lay Editor. It fulfills exactly the ideal of a Carnotto publication, and is excelled by none throughout the country that assume the title.

The "Union" is a valuable Advertising Medium, being the only Catholic Paper published in the English language in Western New York.

Patented, June 26, 1877.

MADE IN FOUR GRADES AS FOLLOWS:

- "No. 1. EXTRA COPYING" (very soft), a substitute for ink. Letters, written with this grade, can be copied in the usual manner by slightly dampening the copying paper; it is also excellent for marking linen.
- "No. 2. GENERAL COPYING," for universal use. Being of medium softness, in order to produce a good plain copy from letters written with this grade, the copying paper should be thoroughly dampened; it may also be used for marking linen.
- "No. 3. MEDIUM COPYING," for office use. This grade being medium hard is intended for order books and memorandums; the writing will not erase or blur by the pages of a book rubbing together; to produce a good copy, the copying paper requires to be quite moist.
- "No. 4. NON-ERASIVE," for reporters and stenographers. This grade, being very hard and smooth, is more durable, and will hold a point longer than any other pencil of equal smoothness; it is the best for marking fine fabrics; a copy can be obtained by making the paper extra wet without removing the surplus water.

DIRECTIONS FOR MARKING LINEN, &c.

Any of the foregoing kinds may be used for marking linen, the No. 4 being especially adapted for marking very fine fabrics.

TO PRODUCE A GOOD RESULT,

first dampen the cloth slightly with water, and then write upon it as with any other pencil.

TO MAKE IT LASTING,

after being marked, tron it well before washing.

The No. 1 we make in artist style only.

Nos. 2, 3 and 4 we make in artist style, also encased in wood.

The artist style is particularly suited for this class of pencil, therefore, is espectally recommended. Sold by Stationers, Druggists and Notion Houses throughout the United States and Canada.
